

KINDERGARTEN

JUNE 2022

Kindergarten had an amazing school year, our Kindergarten students learned so much. From learning our letters, learning the sounds the letters make, to fully reading and writing their own complete sentences. We had so much fun celebrating holidays, playing games, growing our own butterflies from tiny caterpillars in the spring, learning about each other, and most importantly, learning how to be good friends and live the way God wants us to. I am so proud of our Kindergarten students for all their hard work and dedication they have shown to being the best they can be. I hope everyone has a beautiful and relaxing summer!

Lots of love,
Mrs. Maggie
