Mrs. Novinsky - Grade 1

"Let Your Light Shine"

From the Teacher's Desk

How quickly the year has flown! Thank you, parents, for all you did to help your children to succeed this year. They have grown and achieved success in so many areas. It is with a sense of joy and sadness that I say good-bye to your children. Thank you for the privilege of being their teacher. I have enjoyed their lively spirit, enthusiasm for learning, and wonderful personalities. Though I will miss them all, I am confident that they are ready to be second graders!

Thank you to all the parents who contributed supplies to our room throughout the year. They were much needed and greatly appreciated!

Have a wonderful and safe summer. God Bless!

Wrapping Up the Year

The children have made tremendous progress in reading over the year. Their word knowledge and understanding of text as well as genres are amazing. They all love to read! I am so proud of them.

Their math skills continue to grow. The children have acquired a strong base in number knowledge as well as addition and subtraction facts and strategies.

Journal writing and story responses have given them a chance to be creative, practice grammar skills, and grow as writers. I have enjoyed all their thoughts and ideas. Great job grade 1!

Summer Reminders

Please continue to read to and with your child over the summer. A suggested reading list will be sent to you. In addition, please practice addition and subtraction facts to 20. Counting change up to a dollar and working on telling time would be helpful too. Encourage your child to write about summer experiences in their journals. These activities will give your child a strong start in grade 2.
