

Second Grade News

Ms. Lisa Bartlett

January ❄️ 2023

English Language Arts

The sensational second grade readers have been learning about the various text features that authors and publishers use to focus their audience's attention on key concepts. The students will use their knowledge of text features as they design and publish their animal research reports. Look for the aforementioned reports at the upcoming Open House! 😊

Mathematics

Grade two's marvelous mathematicians are working on using a variety of strategies to solve double-digit addition and subtraction problems with and without regrouping. + -

Science

Second grade's active investigators have conducted experiments with magnets and are learning about the concept of magnetism. ⚡

The students have also been learning about animal life cycles and how adult animals care for their offspring.

Religion

The students readily discuss their relationship with Jesus as they move their way through the *We Believe* religion book. It is truly a blessing to witness their faith in action. ♡

Social Studies

The students have been learning about communities and timelines. They will be researching their family ancestry by interviewing their family members. Be on the lookout for your junior reporter next month! 📝

The community of learners in second grade continue to work as a team to accomplish academic goals. They work together to keep their learning environment fun and friendly. They comfort one another in times of grief. They laugh freely with one another in times of joy. They are a remarkable class! ♡
