Preschool 4 Newsletter

Happy New Year! I hope you all had a wonderful Christmas season. It's hard to believe that we are already halfway through our school year!

Last month we were preparing for Christmas. Our centers were filled with learning activities that explored the sights and sounds of the Christmas season. We made reindeers, candy canes, Santa, Christmas lights and wreaths. We also worked on simple patterns, discussed the Advent season, and made Advent wreaths. The children were very excited for baby Jesus's birthday and for Christmas to arrive! We read many fun Christmas stories and sang many Christmas songs throughout the month.

This month we will be exploring all that winter has to offer. We will take a closer look at snow and ice as well as have some fun creating snowmen. We will be learning about the colors blue and white, the number 5, and rectangles. Please continue to send your child in with a hat and mittens. We do our best to be outside daily.
