

# GRADE 2

## Quarterly Newsletter-3rd Quarter

Dear Second Grade Parents,

Welcome to the latest edition of our quarterly newsletter, designed to keep you updated on the exciting adventures and educational milestones happening in our second-grade classroom!

### Mathematics:

In Math, we have been wrapping up Chapter 4, which focuses on various addition and subtraction strategies. Your children have been exploring different methods to solve mathematical problems, enhancing their number sense and problem-solving skills. Additionally, we have been delving into the concepts of telling time and counting money, laying a strong foundation for practical math skills.

### Science and Social Studies:

Our Science explorations have been focused on the fascinating world of materials and their properties. Your children have actively participated in hands-on experiments, discovering the characteristics and behaviors of different substances. These experiences have sparked curiosity and critical thinking, laying the groundwork for future scientific inquiry.

### ELA (English Language Arts):

In ELA, we're thrilled to report that we are right on track with our reading and spelling units. The students have been actively engaged in various literacy activities that strengthen their reading comprehension and spelling skills. We have also introduced cursive, which the students are excited to work on! Furthermore, we have been diligently working on our class book project, which will showcase the creative writing and storytelling talents of our students. We are excited to share the final product with you by the end of April.

### Religion:

This quarter, we embarked on an important milestone in our religious education journey as your children made their first penance. It was a significant and meaningful experience, emphasizing the values of repentance, forgiveness, and being followers of Jesus. We continue to explore ways to live out these teachings in our daily lives, fostering a strong spiritual foundation.

### Reminders:

I kindly remind all parents to ensure that green folders are emptied every Friday. Additionally, please sign the sheet enclosed in the folder to acknowledge receipt of important information.

If ever there is a time you must contact me outside of school hours, please feel free to utilize Class Dojo and send me a message! I will get back to you as soon as possible.

### A Heartfelt Thank You:

I'd like to extend my heartfelt gratitude to all the parents who generously donated Clorox wipes and wishlist items. Your support truly enhances our classroom environment and helps us create a more enriching learning experience for your children, thank you!

As always, I'd like to encourage open communication and welcome any questions or feedback you might have. Thank you for entrusting me with your child's education; it's a joy and privilege to be a part of their academic journey.

Warm regards,

Ms. Erin Monaghan
